
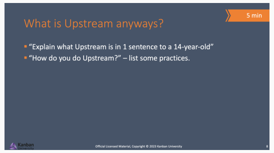
Introduce yourselves

- What's your name, what do you do for work?
- How do you feel about today's event?
- What did you have for breakfast?

What subject do you wish was taught in every school?

Introduce yourselves



What is Upstream anyways?

5 min

- "Explain what Upstream is in 1 sentence to a 14-year-old"
- "How do you do Upstream?" – list some practices.

What is your purpose for being here in this class? What are your objectives?

Upstream, like the course promises

As part of orchestration team, we are currently designing the idea lifecyle atm, so keen to fill any gaps in our process/thinking at work

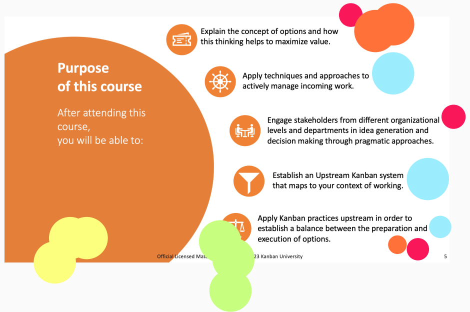
To find out where my knowledge gaps are

Have some misconceptions corrected.

Keen to learn anything more about Kanban

Dani - Learn more about upstream/ scale Kanban

Purpose for the class



Purpose of this course

After attending this course, you will be able to:

- Explain the concept of options and how this thinking helps to maximize value.
- Apply techniques and approaches to actively manage incoming work.
- Engage stakeholders from different organizational levels and departments in idea generation and decision making through pragmatic approaches.
- Establish an Upstream Kanban system that maps to your context of working.
- Apply Kanban practices upstream in order to establish a balance between the preparation and execution of options.
